

# Quality Policy

At Performance Elastomers, we have two main objectives for our quality system:

- Satisfying our customers by delivering the products and services they need on time and produced to specific part standards.
- Continually improving our processes so that our work meets applicable requirements and is done right the first time.

All products manufactured at Performance Elastomers are subject to our quality control procedures and we guarantee that the products manufactured will be of the highest quality.

We understand that a commitment to continually improve our products and processes will provide us with growth and profitability.
